PARTIES

1. Admits the allegations of ¶ 1, except denies knowledge sufficient to form a belief as to the truth of the allegations of the third sentence of ¶ 1.
2. Admits the allegations of ¶ 2.

4. Admits, based on the Court’s Order dated June 9, 2004, that the Court has jurisdiction over Novell’s counterclaims.

VENUE

5. Admits the allegations of ¶ 5.

FACTS

A. UNIX

6. Admits the allegations of ¶ 6.
7. Admits the allegations of ¶ 7, except denies the allegation that AT&T transferred to Novell only “active” UNIX licensing agreements.

B. Linux

8. Admits that Linus Torvalds purportedly developed the Linux operating system by consulting and referring to other materials; admits that numerous other parties have also

contributed to Linux, including parties who wrongfully contributed SCO's UNIX intellectual property; but denies information or knowledge sufficient to form a belief as to the truth of each and every other allegation of ¶ 8.

9. Admits the allegations of the first sentence of ¶ 9, but denies the second sentence of ¶ 9 to the extent it alleges that SCO intellectual property in Linux is legally and properly available to the public.

C. The Asset Purchase Agreement Between Novell and The Santa Cruz Operation, Inc.

10. Admits that in 1995, Novell ("Seller") and The Santa Cruz Operation, Inc. ("Santa Cruz") entered into negotiations resulting in the transfer to Santa Cruz of "all of Seller's right, title and interest in and to the assets and properties of Seller relating to the [UNIX and Unixware] Business," including the copyrights in UNIX and Unixware; but denies each and every other allegation of ¶ 10.
11. Admits that Santa Cruz was founded and operated as a UNIX development, porting, distribution, support, and consulting company; and admits the other allegations of ¶ 11.
12. Admits the allegations of ¶ 12.
13. Admits the allegations of ¶ 13.
14. Admits that the APA transferred to Santa Cruz "all of Seller's right, title and interest in and to the assets and properties of Seller relating to the [UNIX and Unixware] Business," including (among other things) the copyrights in UNIX and Unixware, the assignment of thousands of contracts and licenses, and the other assets listed in ¶ 14.
15. Admits that, to help bridge the gap between the purchase price of the UNIX business and the price Santa Cruz could afford, the parties agreed to a narrow exception to the

complete transfer of the UNIX business; that pursuant to this exception Novell retained the right to continue receiving royalties that SCO collected from then-existing SVRX licensees for their distribution of binary (object) code versions of System V products pursuant to sublicensing agreements; and that Novell retained the right to conduct audits, and direct Santa Cruz to take certain actions, to protect that future binary royalty stream. SCO, however, denies each and every other allegation of ¶ 15; and to the extent ¶ 15 purports to state a legal conclusion, states that no response is required.

16. Admits the allegations of the first three sentences of ¶ 16 to the extent those allegations refer only to the SVRX binary royalty stream (as described in ¶ 15, above); and admits the allegations of the last sentence of ¶ 16.
17. Admits the allegations of ¶ 17, except denies the allegation that Novell retained, or that the parties to the APA intended for Novell to retain, the copyrights in UNIX and Unixware under Schedule 1.1(b) or any other schedule or provision of the APA.
18. Admits that Novell retained certain rights to audit Santa Cruz's administration of the SVRX binary royalty stream; denies each and every other allegation of ¶ 18; and to the extent ¶ 18 purports to state a legal conclusion, states that no response is required.
19. Admits the allegations of ¶ 19 only to the extent they refer to the rights and obligations of the parties with respect to the SVRX binary royalty stream (as described in ¶ 15, above).
20. Admits the allegations of the first three sentences of ¶ 20, but denies each and every other allegation of ¶ 20.

D. Novell's Alleged Ownership of the UNIX Copyrights

21. Admits that the APA transferred to Santa Cruz all of Novell's right, title, and interest in and to Novell's assets and properties relating to the UNIX and Unixware business; admits that certain limited assets were excluded from the transfer; but denies each and every other allegation of ¶ 21, including the allegation that the APA did not transfer to Santa Cruz the copyrights in UNIX and Unixware.
22. Denies the allegations of ¶ 22; and to the extent ¶ 22 purports to state a legal conclusion, states that no response is required.
23. Admits that Novell and Santa Cruz executed Amendment No. 2 to the APA; and to the extent ¶ 23 purports to state a legal conclusion, states that no response is required.
24. Denies the allegations of ¶ 24; and to extent ¶ 24 purports to state a legal conclusion, states that no response is required.
25. Denies the allegations of ¶ 25 (including subparagraphs a-d); and to the extent ¶ 25 (including subparagraphs a-d) purports to state a legal conclusion, states that no response is required.

32. Admits that, after Caldera's acquisition of Santa Cruz's Server Software and Professional Services divisions, most of Caldera's revenue came from UNIX products and services, including approximately 90% of its total revenues at the end of fiscal year 2001 and 95% of its total revenues at the end of fiscal year 2002; admits that (at least in part because of the unauthorized use of SCO's proprietary UNIX code and other protected materials in Linux) Caldera's actual and forecasted revenues from the sale of UNIX-based products declined in the fiscal quarters following the acquisition; but denies each and every other allegation of ¶ 32.

33. Admits the allegations of ¶ 33.

34. Admits that Caldera hired Darl McBride as its President and Chief Executive Officer in June 2002 and that Mr. McBride was responsible for Caldera's strategic direction, with input from other executives of the company; but denies each and every other allegation of ¶ 34.

35. Admits the allegations of ¶ 35.

37. Admits that SCO launched the SCOsource initiative to review, enforce, and defend SCO's ownership of its UNIX intellectual property (including copyrights); admits that

G. Communications Between SCO and Novell in Late 2002 and Early 2003

38. Admits that in late 2002, as part of the review of its intellectual property, SCO contacted Novell to confirm SCO's understanding that the UNIX and Unixware copyrights had been transferred under the APA and to ask if Novell had documents concerning the APA; admits that Novell counsel and other employees repeatedly and successively asked SCO to call again at a later time after Novell had had the opportunity to research the matter; admits that in early 2003, Novell counsel agreed to sign a letter stating that the APA transferred all right, title, and interest in and to the copyrights associated with the AT&T SVRX software agreements; admits that SCO sent Novell counsel a draft of that letter but Novell responded that it was no longer interested in UNIX and would not sign; admits that Novell did not sign the letter and ceased communications with SCO; further admits that during the aforementioned conversations Novell never asserted its purported, or challenged SCO's, ownership of the UNIX and Unixware copyrights; but denies each and every other allegation of ¶ 38.
39. Admits that (at Novell's request, as described in ¶ 38 above) SCO contacted Novell on multiple occasions in early 2003; but denies each and every other allegation of ¶ 39.

- a. Admits that on May 12, 2003, Darl McBride sent Novell a letter setting forth the statements therein.
 - b. Admits that, in response to Mr. McBride's May 2003 letter, Novell CEO Jack Messman sent SCO a May 28, 2003 letter (published in several newspapers and other publications) stating that "SCO is not the owner of the UNIX copyrights" – a statement that Novell recanted in a June 6, 2003 press release stating that

Amendment No. 2 to the APA “appears to support SCO’s claim that ownership of certain copyrights for UNIX did transfer to SCO in 1996.”

126. Denies the allegations of ¶ 126; to the extent ¶ 126 purports to state a legal conclusion, states that no response is required; and states that Novell is not entitled to the relief it seeks in ¶ 126.

SEVENTH CLAIM FOR RELIEF

127. Repeats and re-alleges its answers to all prior paragraphs as if those answers were fully set forth herein.
128. Admits that, under Section 4.16 of the APA, SCO agreed to collect and pass through to Novell 100% of the royalties paid by then-existing SVRX licensees for their distribution of binary-code versions of System V products pursuant to sublicensing agreements; admits that, under Section 4.16, Novell agreed to pay SCO 5% of such binary royalties as an administrative fee; admits that SCO was responsible for making additional payments to Novell for products unrelated to the SVRX licenses and this litigation; denies each and every other allegation of ¶ 128; and to the extent ¶ 128 purports to state a legal conclusion, states that no response is required.
129. Admits the allegations of ¶ 129 to the extent the terms “SVRX royalties” or “SVRX licenses” refer only to the intended binary royalty stream described in ¶ 15 and ¶ 128, above; and to the extent ¶ 129 purports to state a legal conclusion, states that no response is required.
130. Admits the allegations of the first sentence of ¶ 130 to the extent they refer to the intended binary royalty stream described in ¶ 15 and ¶ 128, above, and to payments for products unrelated to the SVRX licenses and this litigation; denies each and every

other allegation of ¶ 130; and to the extent ¶ 130 purports to state a legal conclusion, states that no response is required.

131. Denies the allegations of ¶ 131; and to the extent ¶ 131 purports to state a legal conclusion, states that no response is required.

135. Denies the allegations of ¶ 135; and to the extent ¶ 135 purports to state a legal conclusion, states that no response is required.

136. Denies the allegations of ¶ 136; and to the extent ¶ 136 purports to state a legal conclusion, states that no response is required.

137. Admits that the binary royalty payments due to Novell under the APA are calculated by formula and that SCO directly receives those payments; denies each and every other

allegation and the characterizations in ¶ 137; and to the extent ¶ 137 purports to state a legal conclusion, states that no response is required.

138. *Denies the allegation that SCO owes Novell monies under the APA, and states that Novell is not entitled to an accounting.*

PRAYER FOR RELIEF

139. States that the enumerated ¶¶ 139-43 following Novell's Prayer for Relief include requests for relief as to which no response is required. To the extent a response is required, SCO denies that Novell is entitled to the requested or any relief.

GENERAL DENIAL

SCO denies each and every allegation in Novell's Counterclaims that is not specifically admitted herein.

AFFIRMATIVE DEFENSES

SCO hereby asserts the following separate defenses to the purported causes of action in Novell's Counterclaims, without assuming any burden of proof that rests with Novell with respect to such defenses.

First Defense

Novell's slander-of-title counterclaim is barred by the absolute and conditional privileges enjoyed by SCO.

Second Defense

Novell's slander-of-title counterclaim is barred by the First Amendment to the United States Constitution.

Third Defense

Novell's counterclaims are barred, in whole or in part, by the doctrine of waiver.

Fourth Defense

Novell's counterclaims are barred, in whole or in part, by the doctrines of laches and delay.

Fifth Defense

Novell's counterclaims are barred, in whole or in part, by the doctrine of estoppel.

Sixth Defense

Novell's counterclaims are barred, in whole or in part, by the doctrine of unclean hands.

Seventh Defense

Novell's counterclaims are barred, in whole or in part, by the applicable statute of limitations.

Eighth Defense

Novell has failed to mitigate its alleged damages, and accordingly, any damages awarded to Novell should be reduced to the extent of its failure to mitigate.

Ninth Defense

Novell's counterclaims are barred, in whole or in part, by lack of causation. To the extent that Novell alleges (contrary to fact) that it has suffered damages, such damages were not proximately caused by any act or omission of SCO, or were not reasonably foreseeable, or both.

Tenth Defense

Novell's Answer and Counterclaims fails to state a claim upon which relief can be granted.

WHEREFORE, plaintiff and counterclaim-defendant SCO demands judgment dismissing Novell's counterclaims with prejudice, along with such other and further relief as the Court deems just and proper.

DATED this 12th day of September, 2005.
